THERE IS AN ALTERNATIVE

- Raise £120 billion by collecting unpaid tax
- Cut the real waste - like the £billions spent on Trident nuclear weapons
- A 'Robin Hood' tax on financial transactions could bring in £30 billion a year
- We own the banks - make them invest in jobs and services

Fair Pensions For All

- Stop the attacks on public sector pensions
- Increase State pensions as advocated by the National Pensioners Convention to above the official poverty level of £176 per week
- Require all employers to provide decent occupational pension schemes

Sign the petition started by the National Union of Teachers: go to www.teachers.org.uk

Join the campaign to save our public services

We are a local campaign which aims to unite all those who oppose the Con Dems' policies of cutting and privatisation.

Keep in touch with us and get your trade union branch or community group to support us - we can send a speaker to one of your meetings. Let's make sure the fight back against cuts, privatisation and austerity is as big and united as possible.
